

Discovery System For Your Business

Multi-Award Winning strategic Marketing Agency

G20 AWARD WINNER

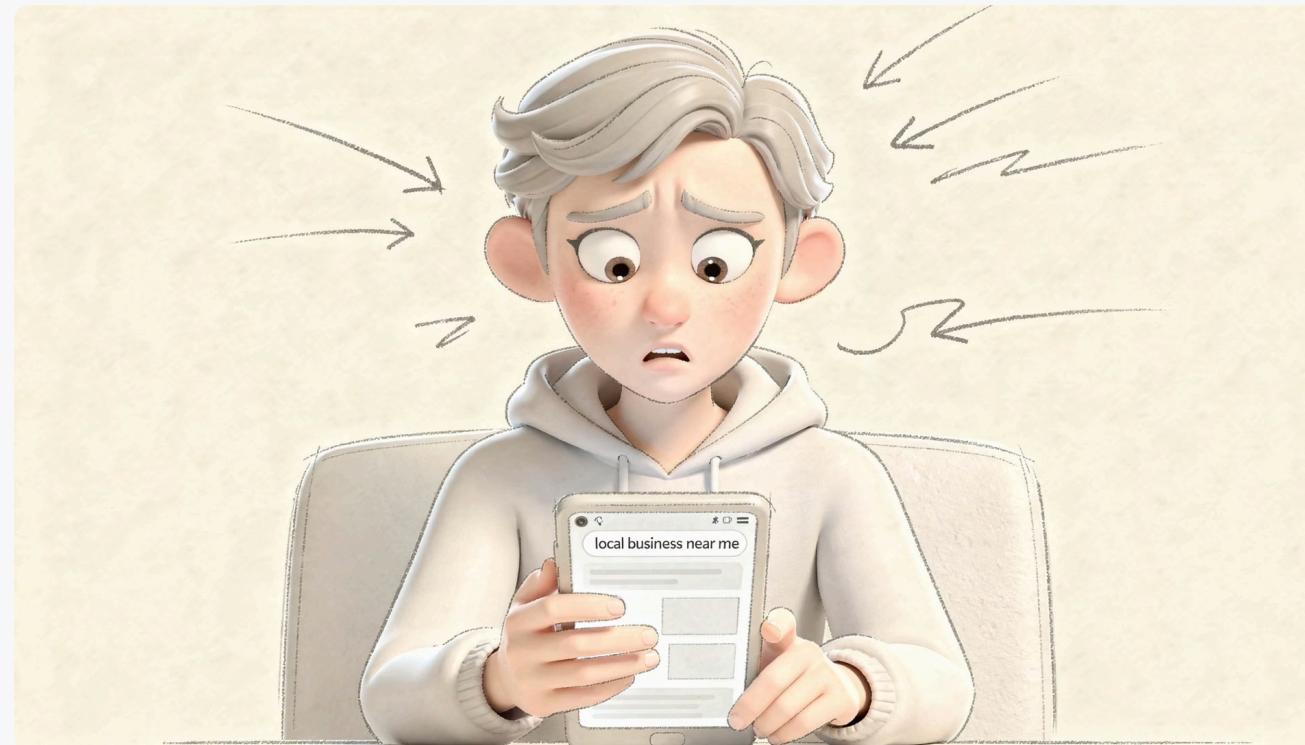

BUSINESS EXCELLENCE 2023-2025

Your Business Is Invisible

Right now, customers are searching for businesses like yours. But if they can't find YOU, they're choosing your competitors. 80% of consumers search online before deciding to do business or using service from a business. If you're not visible in AI, search results, maps, and AE recommendations, you simply don't exist to new customers.

The Discovery Crisis

How Customers Choose Today

- 46% of Google searches have local intent
- 60%+ of AI searches relate to business discovery
- 80-90% research online before choosing
- Most pick from top 3-5 visible results
- 68%+ new generation choose AI answers as decision guide

Every month, hundreds if not thousands search for business like yours. If you're not consistently visible, those searches go to competitors. (End of the day someone gets those customers – ARE YOU GETTING THEM?)

Four Main Ways Customers Find Businesses

AI Assistants (AI Ecosystem)

ChatGPT, Gemini, Bard, and other AI tools recommend businesses. If they don't know you, you're invisible to this growing search method.

Map Applications

Google Maps and Apple Maps are the new storefront. Customers see ratings, photos, and reviews before deciding to visit.

Search Engines

Traditional search still drives discovery, Google, Bing, Safari (Apple users). Top results capture attention while lower rankings are virtually invisible.

Social Searches & Signals

Customers discover businesses through social media platforms like Instagram, Facebook, TikTok, Youtube and LinkedIn, where posts, recommendations, and social proof influence their decisions. [\(AI Answers are also coming to social platforms!!\)](#)

The Hidden Cost of Being Invisible

Calculate Your Lost Revenue

The Formula: Monthly searches \times 10% conversion \times average spend \times lifetime value

Example: 1,000 monthly searches \times 10%
= 100 potential customers \times £100 spend
= £10,000 monthly revenue)

That's £120,000 annually in missed opportunities.

Compare a one-time £2,490 investment versus ongoing lost tens of thousands in revenue. Which one is more expensive?

Why Traditional Marketing Fails

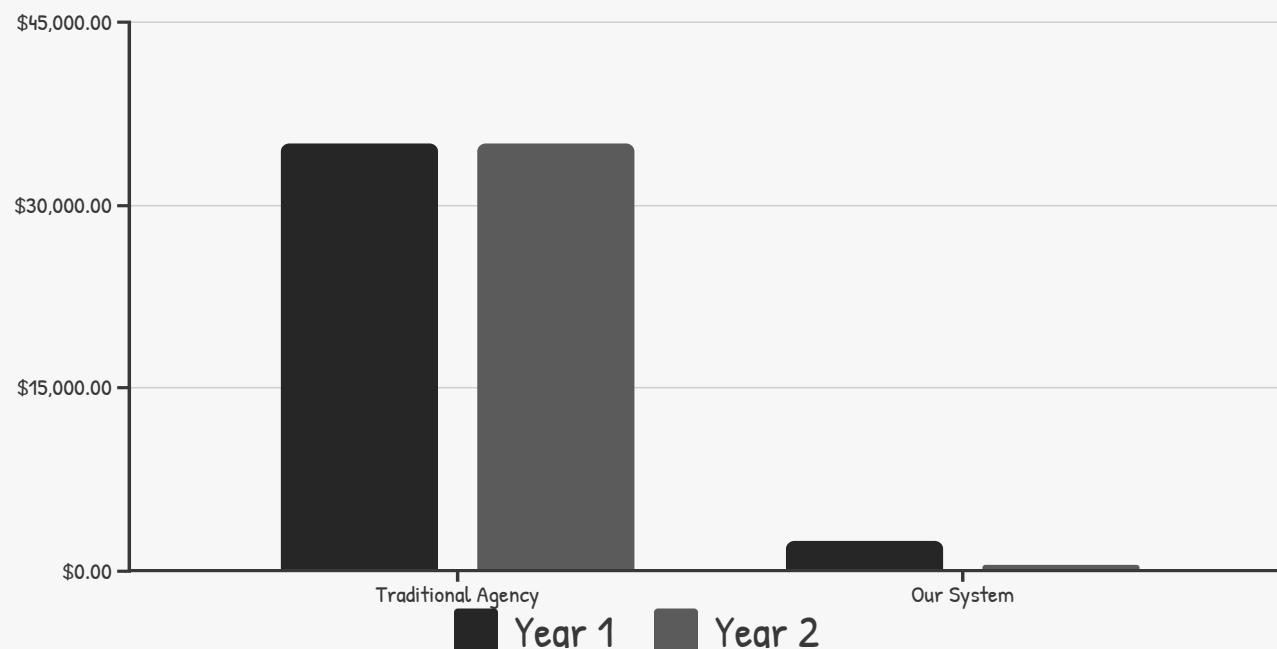

Traditional Agencies

- Monthly retainers drain budgets
- Generic templates, not specialist work
- Results disappear when you stop paying
- International labor creates security risks - a lot of fraud
- Focus on billing cycles, not outcomes
- Min spend £18,000 before results show
- Your one in hundreds - what do they care if you succeed or not

Our Approach

- One-time setup investment
- Specialist discovery infrastructure
- Results persist for long time
- UK-London - based team - open for meetings
- Success-driven partnership model (Your success is our success)
- One time small fee to establish business discovery in digital world
- Expert proven results (Working with corporations and government) - High end trust - G20 award from Saudi Royal family for proven work
- We work as long as we have to, to ensure before and after proof exists - Success guaranteed overtime or 50% money back guarantee

The Cost Comparison

Stop Endless Payments

Traditional agencies charge thousands monthly. Stop paying and your visibility vanishes instantly.

Our system works for years after a single investment. We monitor for 6 months to ensure perfect performance.

£2,490 one-time investment versus
£70,000+ over two years from other agencies. The choice is clear.

Case Study 2: Mamaloo's South African Shop

is there a good shop for south africal products in maidenhead UK?

Yes — there's a well-liked shop in Maidenhead where you can find authentic South African products. [Mamaloo's South African Shop on Brock Lane, Maidenhead \(SL6 1LP\)](#). Locals praise it as a biltong, boerewors, South African groceries, snacks, drinks, spices, sweets and more — home for expats or anyone craving South African flavours. [maidenhead.cyle...](#)

Customers describe the owner as friendly and the selection as varied, covering staples like South African cereals, sauces, chocolates, and even some sportswear and cultural items. [...](#)

Tips:

- Opening hours vary by day (usually mid-morning to late afternoon), so calling ahead before you visit. [Find Open](#)
- It's right in Maidenhead town centre, a short walk from the main station. [the-shops.co.uk](#)

If you're after specific South African brands or rare items, I can help you check stock or alternatives too.

Exclusive Territory Protection

One Business Per Category

We only work with **ONE** business in your category per location. When we choose you, that's it. No competitors in your area will get the same service. (If you wont go ahead then they might - that is a different story)

This ensures you dominate your market without our other clients competing against you. We make **YOU** win.

If you don't act today, your competitor will. They'll secure the exclusive position and capture all the customers searching for your services.

The clock is ticking. Secure your territory now.

Act Now

Once your competitor claims this exclusive position, it's gone forever.

Don't let them steal your customers while you wait.

Your One Time Investment

Long-Term Value

Results should persist for years. Compare £2,490 one-time versus £70,000+ in traditional agency fees over two years. Compare **one time investment**, **against long time costs** of £100,000+ in lost revenue to your competitors - every single year!

Less than one month's salary for years of customer acquisition. **Can you really afford not to?**

20% VAT applies when applicable. Results typically visible within 2-4 months.

Let Me Be Transparent About Our Strategic Motives

1

Alignment with Government Digitalisation Initiatives

We are positioning ourselves alongside national efforts to digitalise and protect businesses. In the UK alone, an estimated 35-70 businesses close every day, often due to lack of digital presence and visibility. Our goal is to build a strong portfolio of proven success stories that supports future government-backed projects aimed at business sustainability and growth.

2

Strategic Entry Pricing – Limited to the First 100 Businesses at This Price

This pricing is only available to the first 100 businesses under our new structure. After that, prices will increase gradually – still fair, but at least double. We are investing our own capital into delivering this service at near cost. Your success is not optional for us – it is essential.

3

Long-Term Partnership Vision

We want your business – not just for one service, but for the long term. Once we demonstrate measurable results (and we will), you will see further growth opportunities with us. As you grow, your needs expand. As your needs expand, our partnership deepens. That is how we create a true win-win relationship.

Ready to Transform Your Business?

Stop losing customers to competitors, every day. Start dominating your local market. Grow revenue.
