

"The Shortcut to UK Credibility – From Anywhere in the World."

For international professionals in the UK, India, China, Singapore and UAE, Saudi Arabia and anywhere in the world who are ready to gain UK mentorship and experience.

UK Job Experience, Mentorship & Project Placement Programme

Sigulp | Elvijs Plugis, Founder & CEO | London

Your degree, your experience, your skills — needs a UK job track record.

Invisible to Hirers

Hiring managers won't take a chance on someone they don't recognise — no matter how strong your CV looks, UK experience adds levels to your career.

The Global Premium

Professionals in UK, India, China, Singapore, the GCC and many other countries with UK experience earn **30–50% more** than those without it.

The Cost of Waiting

Every month you delay, someone less qualified — but better positioned — takes the role, the salary, the future that should be yours. Take it - take actions - learn career skills.

📌 **No experience. = No credibility. = No offer.**

UK experience is the top recognised career asset in the world.

→ **UK:** Even for junior roles, UK employment market asks for an experience.

→ **China:** UK credibility opens foreign company doors and commands premium salaries in competitive markets.

→ **GCC - Saudi Arabia, UAE, Qatar:** UK experience is the benchmark for world-class professional standard.

→ **India:** MNCs and top firms actively seek UK-experienced candidates — it signals world-class execution.

The question is not whether UK experience matters. **The question is why you don't have it yet?**

In 60 days, you will have what took others years to build.
